Professional Summary

Full Stack Developer with hands-on experience building scalable MERN stack applications (MongoDB, Express.js, React.js, Node.js). Skilled in RESTful API development, JWT-based authentication, role-based access control, and responsive UI design with React.js and Tailwind CSS. Delivered production projects across e-commerce, social media, and enterprise domains. Seeking an entry-level Full Stack Developer role to contribute to impactful software products.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS **Backend:** Node.js, Express.js
Database: MongoDB, Mongoose, MongoDB Atlas **Auth:** JWT, bcrypt **Tools:** Git, GitHub, VS Code
Concepts: REST API Design, MVC Architecture, Role-Based Access Control (RBAC), Responsive Web Design

Experience

Full Stack Developer (Freelance), Archon Tech — Tamil Nadu 2025–2026

- Developed and delivered a MERN Stack application for a client.
- Developed end-to-end MERN stack web applications.
- Built RESTful APIs using Node.js and Express.js.
- Implemented JWT authentication.
- Developed responsive React.js interfaces.

Projects

Ulhavan.com – MERN Stack E-Commerce Platform React, Node, MongoDB, JWT

- Built full-stack e-commerce platform with product catalog, cart, order management, and JWT-secured user accounts
- Designed RESTful APIs for product, user, and order resources; integrated MongoDB Atlas for scalable cloud storage

VFAC.COM – Club Management Platform MERN Stack, RBAC, OTP

- Developed role-based access system (admin/member), attendance tracking module, and OTP-based password reset
- Created secure, validated REST APIs with structured error handling using Node.js and Express.js

X-Clone – Full Stack Twitter Clone MERN Stack

- Replicated core Twitter features (tweets, likes, comments, profiles) with React state management and RESTful backend

Shopper – React E-Commerce Frontend React.js, CSS3

- Built responsive product browsing and Add-to-Cart UI using React hooks, component-based architecture, and CSS3

Education

PSNA College of Engineering & Technology

MCA (Master of Computer Applications) | Completed – 2026

- CGPA: 7.5

Vivekananda College, Madurai – B.Sc. Computer Science 2024

- Second Rank Holder – Recognised at the 53rd Annual College Day Celebration, March 2024

Certifications & Training

- Programming in C | Internet & Web Designing | HTML and Internet Programming | Computer Fundamentals
- Two-day workshop on Python Basics – PROG TEC Academy & Dept. of Computer Science, Vivekananda College, Madurai

Areas of Interest

Full Stack Development | REST API Design | UI/UX Design | Cloud Databases | Software Engineering
